# CHAT-BOARD®

CHAT-BOARD is a magnetic glass writing board - for use in modern offices and in private homes.

## Surface Mounted Moveable:

The Surface Mounted Moveable CHAT-BOARD is a glass board with smooth C-shape edges and radiused corners (4 mm) laminated to a steel plate with bent edge profiles. The steel plate hangs on a metal rail that is supplied together with the Chat-Board. The total distance from the wall to the glass surface is 14.9 mm.

## Permanent Bonded:

The Permanent Bonded CHAT-BOARD is a glass board with smooth C-shape edges and square corners laminated to a thin, flat steel plate which is for permanent and flush attachment on the wall. The total distance from the wall to the glass surface is 4.8 mm. The product should be bonded to the wall by a craftsman or glazer and the wall must be as parallel-plane as possible and free from dust, dirt and any objects protruding over the surface. Further it is a requirement that the surface is coated with a primer intended to prepare the wall for installation of a mirror. Please contact the sales office for full details on the application of this product.

## Glass:

The glass used for CHAT-BOARD in standard colours is a 4 mm thick tempered glass. The glass for CHAT-BOARD in the colours Starlight Black, Metal Taupe, Silver and Mirror is a 4 mm thick glass laminated with a protection film on the back side.
