vitra.

Organic Chair

Organic Highback

The Organic Chair – a small and comfortable reading chair – was developed in several versions for the 1940 „Organic Design in Home Furnishings“ competition organised by the Museum of Modern Art in New York. With its sculptural shapes, the design was ahead of the times. But due to the absence of suitable manufacturing techniques, the armchair never went into production. Not until 1950 did it become possible to manufacture and market organically shaped seat shells in large quantities, as exemplified by Charles and Ray Eames’s famous Plastic Armchair or Saarinen’s Tulip Chair.

The Organic Chair is also available in a version with an extended backrest and longer, wider armrests – the Organic Highback armchair. The Organic Conference version can be used as table seating.

Materials

- **Seat shell:** laminated.
- **Upholstery:** polyurethane foam with fabric cover.
- **Legs:** black ash or natural oak.
- **Glides:** fitted with plastic glides for carpet, felt glides for hard floors additionally included.
- **Origin of wood:** oak (*Quercus robur*) and ash (*Fraxinus excelsior*) from Western Europe and/or Poland.

DIMENSIONS (in accordance with EN 1335-1:2000)

Organic Conference

The Organic Chair – a small and comfortable reading chair – was developed in several versions for the 1940 ,Organic Design in Home Furnishings’ competition organised by the Museum of Modern Art in New York. With its sculptural shapes, the design was ahead of the times. But due to the absence of suitable manufacturing techniques, the armchair never went into production. Not until 1950 did it become possible to manufacture and market organically shaped seat shells in large quantities, as exemplified by Charles and Ray Eames’s famous Plastic Armchair or Saarinen’s Tulip Chair.

The Organic Chair is also available in a version with an extended backrest and longer, wider armrests – the Organic Highback armchair. The Organic Conference version can be used as table seating.

Offering supreme seating comfort thanks to its biomorphically shaped shell, the Organic Conference chair can be combined with a wide variety of conference and meeting tables. Designed by Charles Eames and Eero Saarinen in 1940 as part of their entry for the ,Organic Design in Home Furnishings’ competition organised by the Museum of Modern Art in New York, this chair has long been regarded as an iconic classic.

Materials

- **Seat shell:** laminated.
- **Upholstery:** polyurethane foam with fabric cover.
- **Legs:** black ash or natural oak.
- **Glides:** fitted with plastic glides for carpet, felt glides for hard floors additionally included.
- **Origin of wood:** oak (*Quercus robur*) and ash (*Fraxinus excelsior*) from Western Europe and/or Poland.

Legs

.....

Cosy 2 Heavy use, F80

Cosy 2 is a high-quality milled woollen cloth with a warm character. The lively melange yarn emphasises the fabric's natural colours – from delicate shades to vibrant hues – and gains added elegance with colour-coordinated stitching. The fabric offers thermal comfort and excellent durability, making it suited for upholstered furniture in office settings as well as residential applications.

Cosy 2 is available in 15 colours.

Material	20% polyamide, 80% new wool
Weight	590 g/m ² (17.4 oz/y ²)
Width	154 cm +/- 2 cm (61")
Abrasion resistance	50,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Credo Heavy use, F120

Credo is a durable woollen fabric made of premium worsted yarn with a pleasant feel. The two- and three-tone colours give this fabric a characteristic structure and vibrant appearance. Credo allows for an effective exchange of heat to ensure comfortable thermal conditions for the sitter. The fabric can also be used in office environments.

Credo is available in 22 colours.

Material	5% polyamide, 95% new wool
Weight	640 g/m ² (18.9 oz/y ²)
Width	145 cm +/- 2 cm (57")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Hopsak Medium use, F60

vitra.

Hopsak is an expressive, flat plain-weave fabric made of polyamide. The duotone colours offer a multitude of design possibilities in high-contrast, brightly hued or subtle combinations of warp and weft threads. Highly durable and robust, Hopsak can be used in private interiors as well as public areas.

Hopsak is available in 35 colours.

Material	100% polyamide
Weight	550 g/m ² (16.2 oz/y ²)
Width	127 cm +/- 2 cm (50")
Abrasion resistance	200,000 Martindale
Fastness to light	Type 6
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Hola Medium use, F40

vitra.

Hola is a textile made from 100% recycled polyester. Its finely textured threads are woven into a soft comfortable fabric with an understated expression and almost cotton-like feel. It is simultaneously also resilient enough to be used in semi-public spaces such as hotel lobbies. Hola is Oekotex-certified and manufactured using a dyeing process with a closed water cycle.

Hola is available in 11 colours.

Material	100% recycled polyester
Weight	470 g/m ² (13.9 oz/y ²)
Width	142 cm +/- 2 cm (56")
Abrasion resistance	60,000 Martindale
Fastness to light	Type 5
Pilling	Grade 4-5
Fastness to rubbing	Grade 4-5 dry and wet

Tonus Residential use, F100

vitra.

Tonus is a classic woollen cloth in a plain weave with an appealingly soft and flexible feel. The deep intensity of Tonus colours – ranging from warm and earthy golds that evoke oriental myths and spices to cool nordic hues in the aquamarine spectrum – lend a unique richness to the fabric.

Tonus is available in 14 colours.

Material	90% new wool, 10% helanca
Weight	490 g/m ² (14.5 oz/y ²)
Width	140 cm (55")
Abrasion resistance	100,000 Martindale
Fastness to light	Type 5
Pilling	Grade 3
Fastness to rubbing	Grade 3-4 dry and wet
