BUILD YOUR IDEAS.

PIXEL may look like a box but it can also be a table, a bench, a platform and so much more. PIXEL building blocks ensure that you can flexibly shape space to support a number of different team tasks.

PIXEL brings a new dimension in team working and meeting culture to the workplace, creating playground-like spaces that encourage lively group dynamics and creativity.

CONCEPT: Didi Lenz
DESIGN: Christian Horner

PIXEL Pad:
simply place on top and you have a comfy seat.

PIXEL Top:
closes the boxes and provides a surface.

PIXEL Box:
made from pine plywood and are available with or without storage openings.

Carry handles:
can also be used to connect two boxes together.

Glides:
provides stability when stacking.

FRAME_S
Board:
H-Type with

transportation
platform.

PIXEL Top 180:
a functional
board that
can connect
up to 5 boxes,
providing a
surface.

FRAME_S Boards add vertical work surfaces – digital or analogue – to **PIXEL**. There are two types to choose from: the T-Type with one frame and the H-Type with two

frames. As a room divider on wheels, it can be easily moved to wherever you need it. And it provides practical storage space for **PIXELS**.

WORKSHOPS IN WORKFLOW.

Particularly during workshops, it is often necessary to change the spatial environment.

PIXEL enables you to quickly and easily reshape the spatial setting to meet your requirements. This is not only incredibly practical, but helps to clear the mind.

3.

IT-
SELF

1. **DISCOVER & ANALYSE**

View, sort and interpret facts relevant to the task. Divide results into solution categories.

2. **CREATE**

Develop ideas, experiment and create solution models.

3. **SHARE**

Present suggestions for solutions and to generate feedback.

2.

IDEAS WORKSHOP.

PIXEL brings a workshop feel to the IDEA LAB, energising the workplace with dynamism and a start-up-like mentality. It creates a space where you can think freely, where big ideas and successful business models develop.

**Build huge ideas
with small boxes.**
