

Fauteuil de Salon

Jean Prouvé, 1939

Fauteuil de Salon joins simple planes into a unified architectural object with a comfortable seat surface and backrest. Rediscovered in the archives of the French engineer Jean Prouvé, the armchair has been updated in a contemporary colour palette. With solid wood armrests and the designer's characteristic structural aesthetic, the Fauteuil de Salon can be ideally combined with other pieces in the Prouvé Collection.

Materials

- **Seat and backrest:** polyurethane filling; cover in fabric or leather.
- **Seat height:** 415 mm (340 mm with applied load, measured in accordance with EN 1335-1:2000).
