

Kayt

Design: Ivan Woods

A Common Language

The Kayt program embraces a wide spectrum of seating and occasional table requirements for commercial and residential environments. Its contemporary, restrained and elegant form combined with its range and flexibility, allows it to fit into any interior typology, from informal breakout areas, boardrooms and reception areas through to high end residential and apartment interiors.

Kayt's distinctive lines express the connection between the seat and back elements, creating a unique language common to all elements within the collection, yet distinguishing it from many others of this typology.

Lounge is an invitation to comfort and luxury. Featuring generous armchairs and sofas (with optional loose cushions), in quality fabrics or supple leathers, Lounge is a sumptuous indulgence for home or office.

Rest embellishes reception and waiting areas, meeting rooms and casual breakouts with poise and purpose, complementing interior landscapes. The polished chrome base delivers understated elegance.

Pause is an individual seating solution designed for formal and informal interior spaces - a prelude to what's in store. It comes in 2 base configurations, 4 legged or five star height adjustable, with castors or glides.

The seating program is enhanced by a range of complementary occasional tables with painted, powdercoated or veneer mdf tops, and etched glass tops.

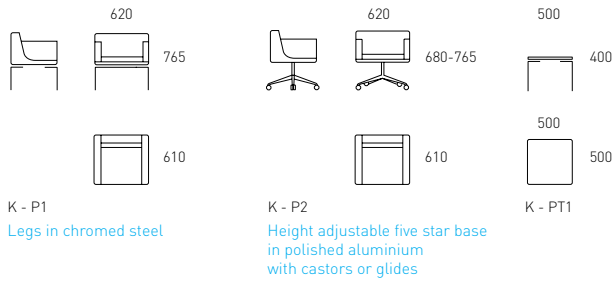

Kayt Chair (with FSC MDF internal frame)
